Projects

Interactive BloggingWebsite with React.js | Visit Project | Source Code   **DEC'23 – MAR'24**

- Developed a modern blogging platform using React.js and Node.js, focusing on user management and scalability.
- Integrated user authentication, ensuring secure user sessions to meet operational standards.
- Crafted a user-centric interface with Bootstrap and custom CSS to improve usability and responsiveness.

Dynamic Portfolio Launch | Visit Project | Source Code   **APR'24 – MAY'24**

- Architected a dynamic portfolio website utilizing Next.js to showcase personal projects and skills.
- Implemented smooth animations and transitions to enhance user engagement and visual appeal.
- Designed a responsive layout with modern UI/UX principles to ensure accessibility across devices.

Apple-Themed Animated Website | Visit Project | Source Code   **AUG'24 – SEP'15**

- Engineered an Apple-themed website with a 360-degree view of the MacBook Pro for product exploration.
- Leveraged Three.js and React Three Fiber to create dynamic animations that enhance visual appeal.
- Designed an immersive experience for the MacBook Pro, combining technology with intuitive navigation.

Responsibilities

- Worked with team members to convert business needs into effective technical solutions.
- Assisted in troubleshooting and resolving technical issues to support team operations.

Skills

Programming Languages:	Java, C
Frontend Technologies:	HTML, CSS, JavaScript, Bootstrap, React.js
Backend Technologies:	Node.js, Express.js, Spring, Hibernate
Databases:	SQL, MongoDB
Tools & Frameworks	RESTful Web Services, Git, GitHub
Data Structures & Algorithms:	Proficient in Java data structures, strong problem-solving skills.

Academic Qualifications

- Computer Science| KL University, AP   **CGPA: 9.49** | **JUL'22 - JUN'26**
- XII | Narayana College, AP   **Percentage: 96.6%** | **JUN'21**
- X | Narayana E.M High School, AP   **GPA: 10/10** | **MAY'19**

Achievements

- **24-Hour React Web Development Bootcamp | Achievement Details**

  Collaborated on real-world applications, demonstrating quick problem-solving in a high-pressure environment.
  Acquired practical experience in building and deploying applications under expert guidance.

- **Web-Sprint 2023 | Achievement Details**

  Developed a fully functional web application using Material UI, Bootstrap, and TailwindCSS during a hackathon.
  Utilized advanced UI frameworks to create effective and scalable web applications.

Certifications

Oracle Certified Java SE 11 Developer | View Certificate

- Attained certification showcasing expertise in Java application development and problem-solving.
- Validated proficiency in implementing best practices for high-quality code delivery.
- Developed a strong foundation in creating efficient and maintainable software solutions.

The Complete 2024 Web Development Bootcamp | View Certificate

- Mastered full-stack development with Node.js, MongoDB, and React.js.
- Learned dynamic web content using JavaScript ES6 and jQuery.
- Developed full stack abilities using Node.js, Express.js, and MongoDB databases in backend web development training.
